

LLOPART offers the first experience of Glamping in Spain

Llopart winery has included a new activity in their wine experiences portfolio that makes them the first winery in Spain to offer *glamping* in the vineyards.

Glamping, also known as glamorous camping, is a form of camping involving accommodation and facilities more luxurious than those associated with traditional camping. At Llopart, the experience takes place amongst vineyards in spacious *haima* tents that accommodate from 2 to 4 people each one, equipped with the amenities you expect to find in a boutique hotel.

Along with Zenith Experience, experts in the design of itinerant comfort camping or Corporate Campsites®, have launched this unique experience: the possibility of spending a glamping night surrounded by vineyards and under the starts in the middle of the Llopart family estate in a 100% local, eco-friendly, responsible, glamorous adventure.

After a visit through the winery and a guided tasting of Llopart still and sparkling wines, the visitors will arrive in a special natural setting at the estate, a Natural Landscape of Interest in Catalonia. The sun will set and then starts will begin to shine while they enjoy local delicacies specially chosen for the moment and, after a good night sleep, the morning sun will discover the majestic view of the wine valley and the Montserrat mountain range on the horizon.

To end the experience with the best taste in your mouth, a breakfast will be served amongst vineyards too.

This experience is addressed to MICE sector for their corporate groups and is offered from April to October. It costs 283€ per person and can also be complemented with an astronomical observation activity or a personal growth one.

Glamping is an environmental-friendly activity, absolutely respectful with nature and is perfectly aligned with Llopart's philosophy to achieve a sustainable and responsible tourism. In this sense, Llopart has been recently recognized with the Biosphere Responsible Tourism certification.
